**Few of us would contemplate making a major transformation to our most prized possession, our home without an assurance of quality workmanship and of the materials used.**

**We place a premium on quality and customer satisfaction.**

## ○ 1 Awning Windows

Awning and Casement Windows have always been popular with New Zealander's and are appropriate for both modern and traditional architecture.

The traditional design has been improved with smooth curves, stylish contours and enhanced practicality.

## ○ 2 Sliding Windows

Sliding windows allow for non intrusive openings onto decks and walkways.

The elimination of the protruding window makes walkways and play areas safe environments.

Installing a sliding window over a bench or sink reduces the risk of strain when you reach to open and close them.

# ○ 3 Bifold Windows

Bifold windows can enhance the indoor-outdoor flow of your home. They fold easily and elegantly to maximize your living spaces. Bifold windows have a cleverly designed top hung roller system.

This system allows for the option of a flat surfaced sill. The optional flat surfaced sill provides a more aesthetically pleasing look and eliminates the bottom track for dirt, sand and debris to get trapped.

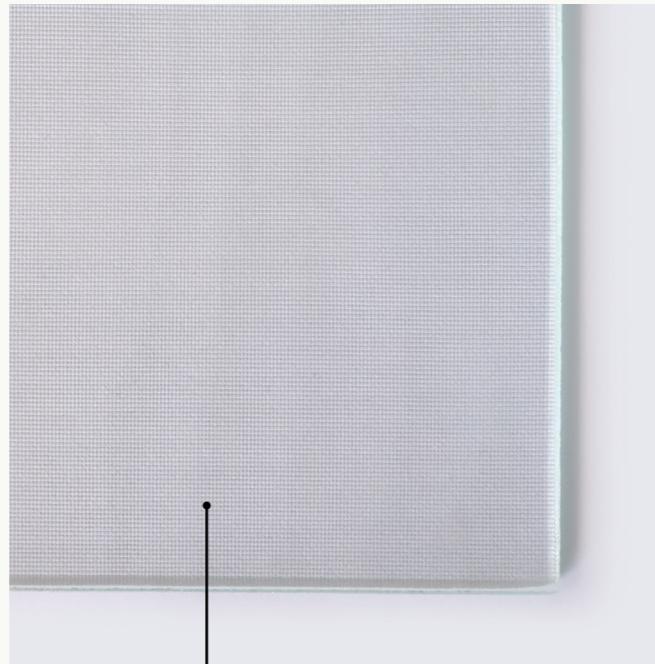

# Glass Examples

For privacy, pure style or to allow more light into internal rooms, our decorative glass gives you a whole range of attractive options.

We have 6 different textured glass designs, together with our premium range of etched glass.

**Cathedral**

**Mistlite**

**Stippolite**

**Clear Etchlite**

## Colour Range

- 1. Use this colour palette as a guide.
- 2. Ask Nustyle for an aluminium colour swatch.
- 3. View the aluminium colour swatch in natural light.
- 4. Confirm your colour when ordering your windows and doors.

For technical reasons associated with the colour reproduction on computer screens, the colours displayed give only an indication of shade. No guarantee can be given that they will exactly match the product. Nustyle uses Dulux Powder and Industrial Coatings.
