**Few of us would contemplate making a major transformation to our most prized possession, our home without an assurance of quality workmanship and of the materials used.**

**We place a premium on quality and customer satisfaction.**

# 1 Bifold

Bi-folding doors are perfect for opening up a room onto a patio or decking area.

Versatile and stylish - the sliding, folding panels can be arranged in almost limitless configurations, improving access and bringing the outside in.

- Superior thermal efficiency
- Safe and secure for all the family

We have been supplying and fitting our range of bifolding doors for many years and believe they offer the best combination of elegance, innovation, engineering, security and value available on the New Zealand market.

## ○ 2 Sliding

The ideal solution for high traffic areas due to ease of operation and non-obtrusive panels.

Perfect to open onto decks or patios, where swing space limits the use of a hinge door. Low profile handles allow awnings to be built into our sliding and stacker doors for the perfect amount of ventilation.

Our slimline aluminium sliding and casement doors give you a strong, secure and durable product for your property.

**We thrive when a challenge is presented to us.**

10,000 mm

**Ten metre Sliding Door instalation, Drury.**

## ○ 3 Hinge

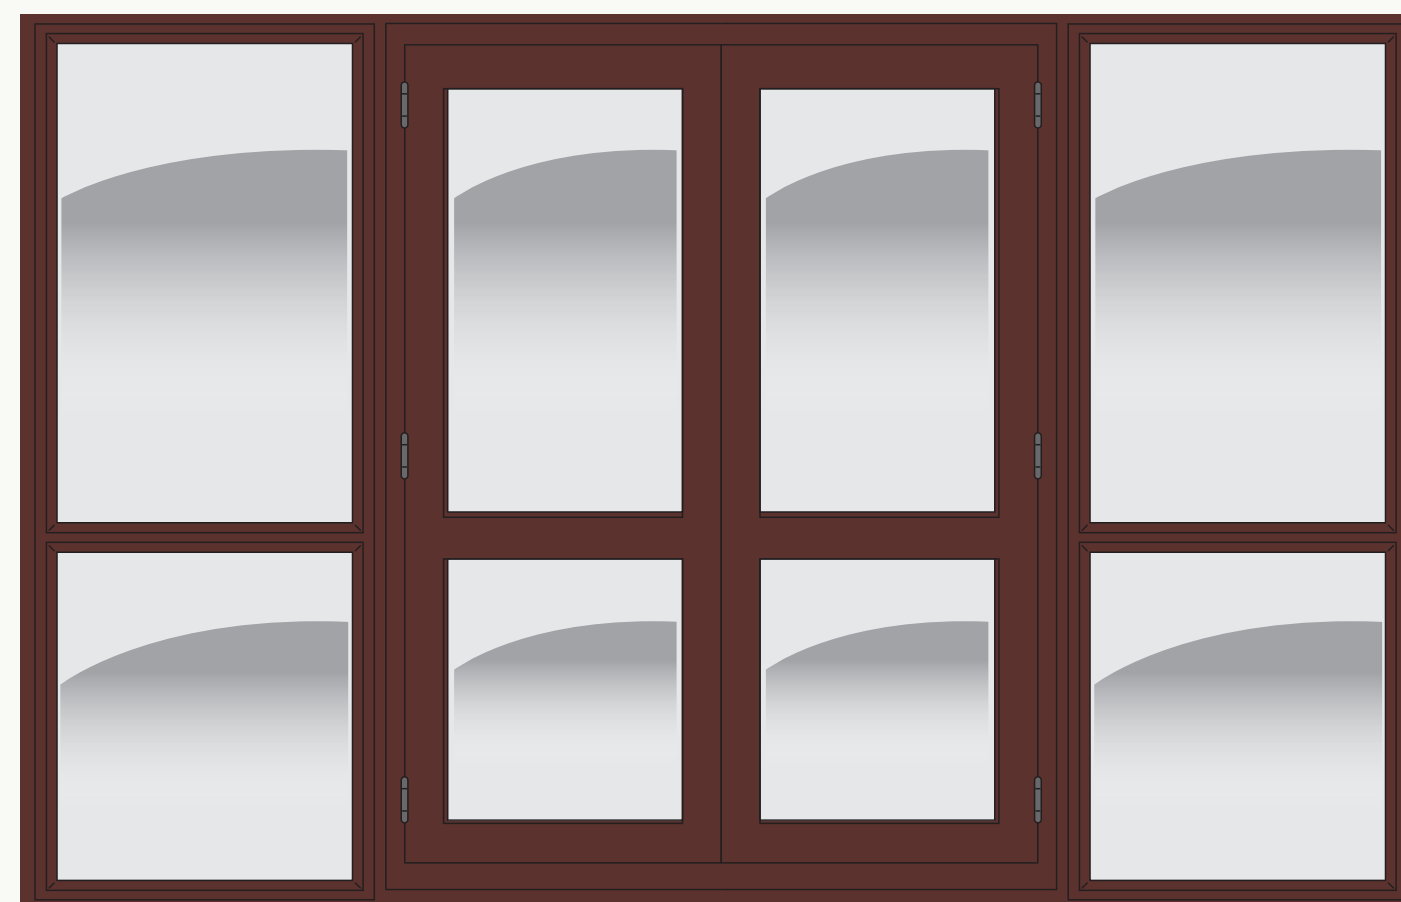

NuStyle doors can be conveniently opened one side at a time, allowing you to control the traffic flow, ventilation and security according to the situation. The door panels come in a variety of sizes to suit the style and proportion of your home.

## ○ 4 French

Traditional French doors available in unlimited window combinations and a wide variety of colours.

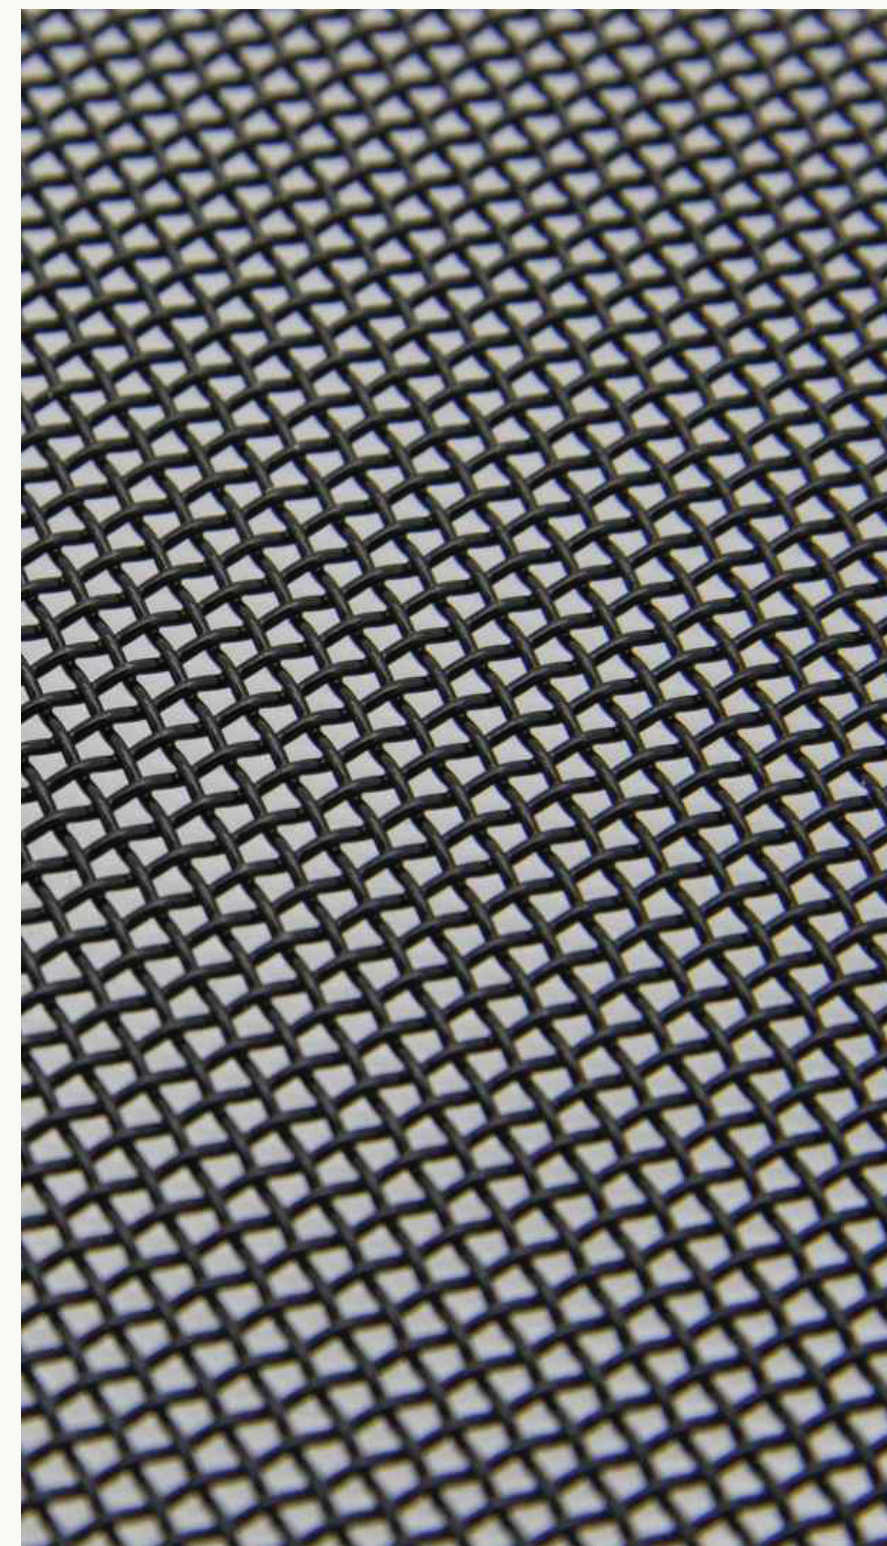

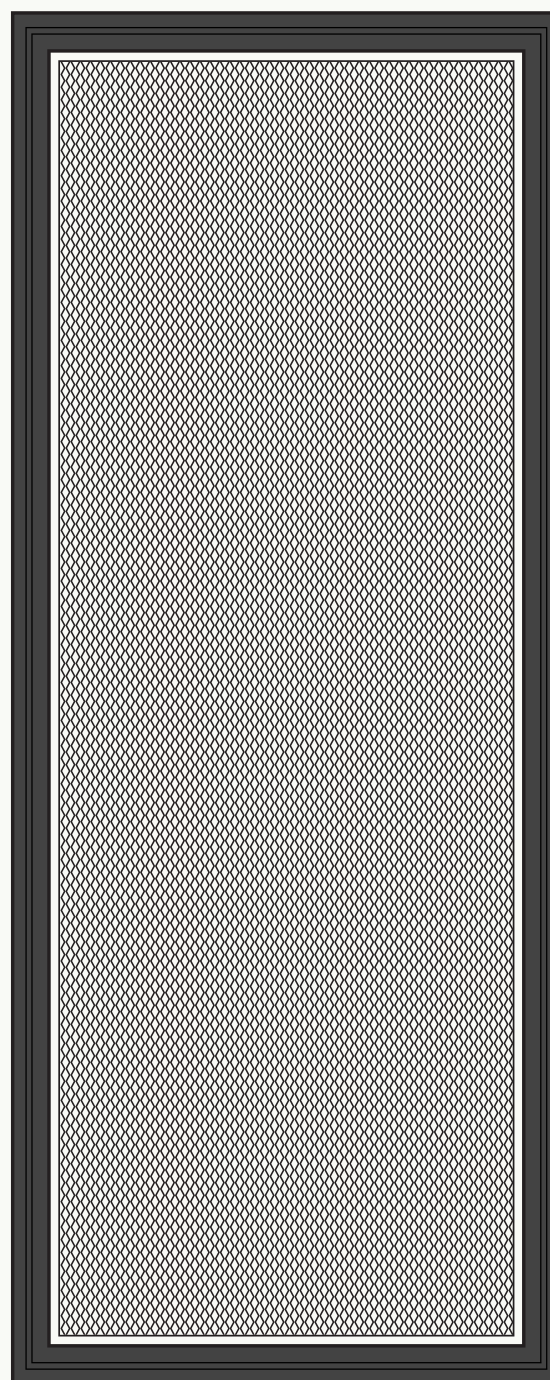

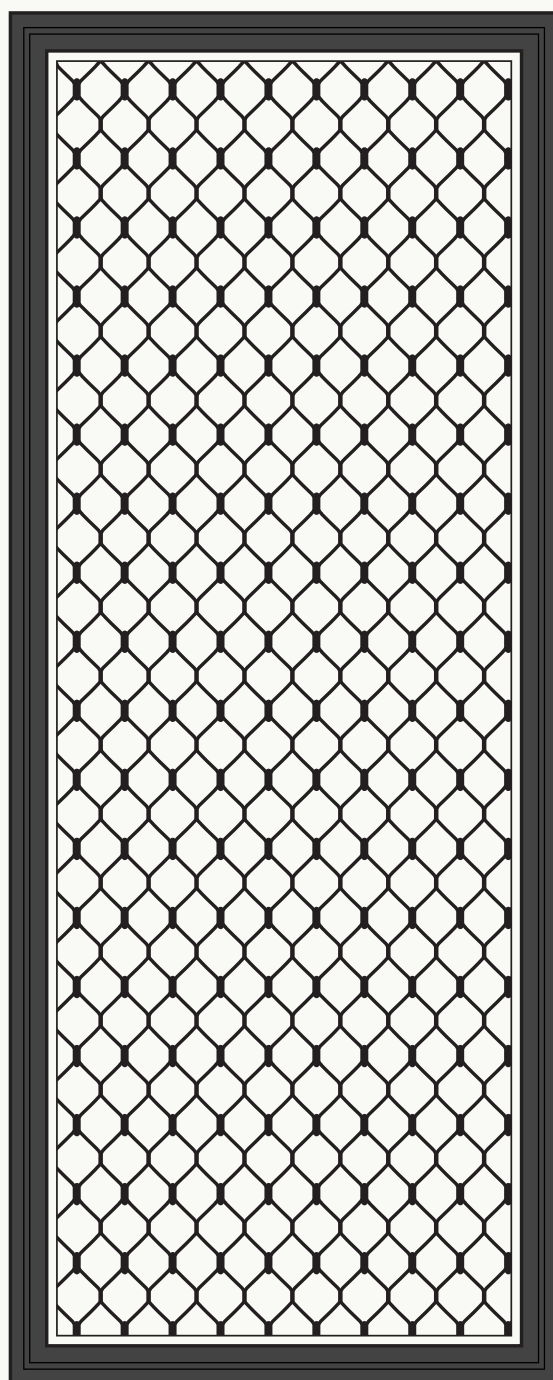

French Doors bring the outside inside in traditional design and form. The door panels come in a range of sizes to suit the style and proportion of your home. Side windows can also be included in the frame.

# ○ 5 Security

Our security products have been designed to meet tough environment conditions and offer strength and durability as well as being aesthetically pleasing.

Our diamond grill and mesh system offers protection and peace of mind for your home.

SecureView offers ultimate protection in the form of steel mesh without compromising your view.

## Colour Range

1. Use this colour palette as a guide.
2. Ask Nustyle for an aluminium colour swatch.
3. View the aluminium colour swatch in natural light.
4. Confirm your colour when ordering your windows and doors.

For technical reasons associated with the colour reproduction on computer screens, the colours displayed give only an indication of shade. No guarantee can be given that they will exactly match the product. Nustyle uses Dulux Powder and Industrial Coatings.
